Is RAB going to tally these responses for all disciplines and provide a summary report out?

Hi NCD POC team members,

Ex. 6 Personal Privacy (PP) had specific questions on NCD timelines for each of the RAB disciplines. Please respond to these questions by Wednesday at noon with high-level answers. If you can't provide answer by tomorrow, please reach out to me or **Ex. 6 Personal Privacy (PP)**

- Can you give an estimate from your respective discipline regarding when you will get through your "incoming" case work enough and start working through the > 100 DRMs for the backlog cases? If you are already there or currently straddling both incoming and backlog cases, then state that. The Exposure discipline completes both incoming and backlog cases. Specifically for incoming cases, after Engineering finalizes their reports, the Exposure discipline completes incoming case work with a 1-day turnaround. For backlog cases, the turnaround is variable and is dependent on when the exposure contractors are available (Wed and Fri). For cases designated "hair on fire" the Exposure discipline may call upon the exposure contractors for support on non-PMN days or may conduct the exposure assessment in-house for a quicker turnaround. At the moment, the Exposure discipline is caught up with all DRMs.
- What is an estimated time frame for completing a DRM (for each RAB discipline)? I know it can vary depending on the DRM, but generally speaking, how long would you estimate? The estimated time frame for completing a DRM in Exposure is 1-3 days.
- Can you give an estimate of how long it takes to complete your discipline-specific portion of the risk assessment for the first run through (without rework)? We estimate on average about 1-hour per case.

Thank you.
